MAKE IN INDIA

Cattleya Technosys
Personal protective measures monitoring

HOW DOES IT WORK

Access to CCTV
We connect to your existing CCTV cameras via the internet to our cloud hosted surveillance system

Snapshots-the optimal way
We map relevant cameras and take snapshots at defined intervals (multiple times an hour to a few times a shift)

Snapshots are reviewed for
- Is anyone without their headgear
- Is anyone without their gloves
- Is anyone without their face mask
- Are people crowding

Report generated
Daily report with images sent to respective stake holders
Daily report wiith overview of compliance levels to Management

Mobile Application
Push to a mobile app with image of violation for on premise staff leader.
Daily weekly issue count on demand.
Push to app messages-**Reward and recognition messaging** in the overall organizations multiple premise centres compliance performance.

No Upfront Investment
Pure cloud service delivery,We use your existing cameras and internet..Minimal Monthly pay as you go - scale up /down as you wish. **Encourage Compliance, Assure your end customers**

Upscale basis Real Impact
Move to Real Time Monitor with dynamic snap shots.
